I recommend you purchase the following title from The Bardwell Press:

## SOCIOLOGY AS SCIENCE AN INTELLECTUAL AUTOBIOGRAPHY

By Raymond Boudon

Translated by Peter Hamilton

In this entertaining and insightful book, Raymond Boudon, one of France's most eminent sociologists, draws on his personal history and intellectual career, showing how they relate to his distinctive ideas on the claim that contemporary sociology can operate as a true science. His distinctive contributions on such topics as educational and social inequality, rationality, methodological individualism, and the classical tradition in sociology have been influential. Boudon's perspective moves beyond narrow, parochial and obscure concerns to the broader issues of how best to explain and understand society.

March 2013, paperback, 106pp, ISBN: 978-1-905622-07-8
